

Adhesive disc on FAS<sup>®</sup>2 support

## Fixing accessories

The discs and plates FAS<sup>®</sup>2, FMS<sup>®</sup>, X LAM<sup>®</sup>, FIX LAM<sup>®</sup> and XLAM 4 allow you to easily fix all your discs whether self-adhesive or not, for simplified manipulation.

### FAS<sup>®</sup>2 DISCS

#### The solution for adhesive fixing

The FAS<sup>®</sup>2 facilitates the sticking and unsticking of all self-adhesive supports (abrasive papers, grinding and polishing discs). It avoids the time consuming cleaning of plates dirtied by glue remains whenever a self-adhesive disc is removed.

The patented material comprising the FAS<sup>®</sup>2 system allows combining the softness and regularity of the abrasion of a flexible coating with the inherent flatness obtained with a metal support.

#### Available in 2 versions:

- **FAS<sup>®</sup>2:** rigid self-adhesive, fixed to your machine's plate, available in all diameters, its low thickness (1 mm) guarantees the initial inherent flatness of the master plate.
- **FAS<sup>®</sup>2-M:** suitable for machines equipped with magnetic base plates or when the LAM PLAN FMS disc is used. The FAS<sup>®</sup>2-M has 2 usable sides, it is therefore reversible, when one side is damaged the other can be used.

### FMS<sup>®</sup> PLATES AND DISCS

#### The fixing system by magnetic attachment.

The FMS<sup>®</sup> magnetic disc sticks to all type of support plates. It is also available in an FMS plate and adapts to all existing machines.

**XLAM 4** NEW

New fixing for polishing discs Serie X.

The XLAM 4 is an innovative product for fixing non-self adhesive polishing discs on metallographic polishing machines by contact. The XLAM 4 is a thin disc to be fixed on the machine plate. Its special surface enables the adherence of XLAM series discs without self adhesive, so polishing supports are quickly and effortlessly interchangeable. Polishing discs can easily be stored and reused.

The XLAM 4 enables easy transition between the different polishing steps and so reduces the time needed for sample preparation.

**GUIDANCE**

Extend the service life of your discs thanks to the discs and plates storage system.

## BOX LAM® 300

The BOX LAM® 300 allows storing discs and plates, up to Ø 300mm. Delivered with 10 sliding aluminium shelves, which may be equipped, among others, with a foam template to store your samples. The large transparent cover and the shelf arrangement allow an optimum visibility of the stored products.

| Characteristics   | Qty. | Dim. (mm)             | Ref.        |
|---|------|-----------------------|-------------|
| Storage for 10 discs or plate up to Ø 300 mm and storage for samples (according to options) | 1    | W 400 x H 470 x D 490 | 08 BL300 00 |
